ABOUT

this studios is a hamburg based design studio that is run by Katja Kirchner. Her work has been internationally recognized by d&ad, cannes lions, red dot and the Art Directors Club.

Besides everyday design work, the studio focuses on premium designer stationery that fits the zeitgeist of design affine people.

Since the launch in 2016 the studio has been selected by some great international stockists such as colette in Paris, 10 Corso Como in New York, Anthropologie and Papersmiths in London, R.S.V.P. and Luiban in Berlin as well as many more great design, book and museum shops around the globe.

The studio pays particular attention to the entire production process and even goes as far as handpicking a selection of high quality paper to ensure a superior finish. All their products are produced and printed in Germany on FSC certified fine paper.
